PROFESSIONAL SUMMARY

Full Stack Developer with close to 2 years of hands-on experience (internship and full-time) building web and mobile applications, REST APIs, and AI-powered features. Delivered 3 client applications, redesigned a Flutter app live on Google Play, and deployed 7+ web projects on Vercel. Works across the MERN stack, Next.js, TypeScript, PostgreSQL, Python, and Flutter, integrating LLM APIs, OAuth/JWT authentication, payment gateways, and real-time features with Socket.io.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Tailwind CSS, Framer Motion, Responsive Design, Flutter

Backend: Node.js, Express.js, REST API, Socket.io, OAuth, JWT, OTP Authentication, Pagination

Databases: MongoDB, PostgreSQL, Supabase (Row Level Security), MySQL

AI / ML: LLM API Integration (Groq, Gemini), Prompt Engineering, Computer Vision, Image Processing

Tools: Git, GitHub, Vite, Vercel, Figma, Razorpay API, WhatsApp Business API

PROFESSIONAL EXPERIENCE

Prompt Engineer | Junkies Coder

Feb 2026 - Present | Himmatnagar, India

- Designed and built an automated vehicle and logo detection pipeline from scratch in Python and TypeScript that returns results in 9-11 seconds per image, replacing manual identification.
- Redesigned the complete UI of Giziv, a Flutter app live on Google Play; fixed 15 bugs and built a new leaderboard module.
- Building AI face-swap and virtual try-on features for Zeeper, a live Flutter e-commerce app, by integrating image-processing REST APIs.
- Worked across 3 Flutter mobile apps and multiple web apps built with React.js, Next.js, Node.js, MongoDB, and REST APIs.
- Developed the initial proof of concept for a WhatsApp CRM on the WhatsApp Business API to automate customer messaging.
- Created reusable, responsive UI components with React.js, TypeScript, Tailwind CSS, and Framer Motion to keep product interfaces consistent.

Full Stack Engineer | Xipra Technology

Jul 2025 - Jan 2026 | Himmatnagar, India

- Delivered 3 client web applications end to end on the MERN stack, covering frontend, backend, and database layers.
- Built reusable, responsive React.js components that translated business requirements into working user flows.
- Integrated REST APIs and optimized PostgreSQL queries; tested and debugged workflows before release.

Full Stack Engineer Intern | Xipra Technology

Jan 2025 - Jun 2025 | Himmatnagar, India

- Implemented core features, responsive UIs, and API integrations in React.js and Node.js applications.
- Worked through the full MERN development lifecycle alongside senior developers on production tasks.

PROJECTS

AI ChatBot | React.js, Node.js, Groq API, Gemini API, Supabase, PostgreSQL

- Built a multi-model chatbot supporting 10+ LLMs via Groq and Gemini APIs, returning responses within 5 seconds.
- Implemented OAuth and OTP authentication with Supabase Row Level Security so each user's chat history is fully isolated.

Slice & Crust - Pizzeria App | MERN Stack, Socket.io, Razorpay API

- Built a full-stack food ordering app with product customization and secure checkout through Razorpay.
- Added real-time order tracking with Socket.io, syncing the customer UI and admin dashboard without page refreshes.

Verde Living - Furniture Store | React.js, TypeScript

- Built a storefront with a drag-and-drop 2D room visualizer and shared state across wishlist and checkout flows.

GitHub Explorer | React.js, GitHub REST API

- Built a repository search tool with live GitHub REST API data, filtering, and per-repository language breakdowns.

CERTIFICATION

Full Stack Development
